Characteristics:

Tsunotsuno Dice, Tsunotsuno Tetra and Tsunotsuno family are educational toys to develop the brain through controlling hand and finger. They are made of materials by Polystyrene-based resin and elastomer, which is safe for play enough to meet the Safety Toy Standards and Food Sanitation Act in Japan.

Users can spin, throw, pile them up on top of each other or connect them endlessly to create more fun shapes, then users come up with numerous ways of playing with them, and help them develop originality and creativity.

The object of the declaration described above is in conformity with the relevant legislations:

See attached test report prepared by the notified body TÜV Rheinland Hong Kong Ltd., <number>, performed report No.0158105465a 001
